# HOME HYGIENE FLOORS

Note: For disinfecting check the labels of your products to ensure they are 'chlorine based'.

- Bleach
- Disinfectant
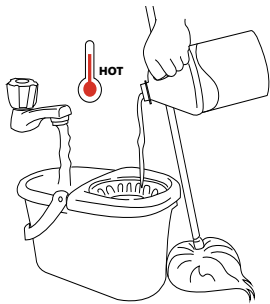

**Choose one of these**

Leave shoes outside or on a washable rack

Always check cleaning product before use

**Half fill mop bucket of hot water and product**
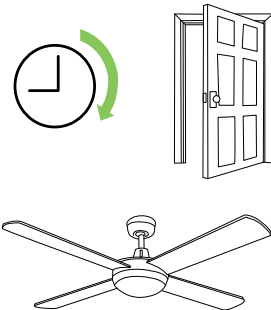

Wet the mop head, drain off the water

Bring the mop to the floor

Make a sweeping zig zag to clean the floor

Rinse the mop, drain again and repeat

Turn fans on, open doors wait to dry

⚠ CAUTION
Use cleaning products safely

- **Always check the product label of cleaning products**
- **Ensure you water down your bleach** (follow the instructions on the bottle)
- **Wash your hands regularly when cleaning**
- **Wear gloves, aprons and masks if they are available to you.**

- **Open windows or turn on fans**
- **Do not spray bleach, instead apply to a cloth or add to water**
- **Let the surface air dry before use** (roughly 5 mins without fans)
- **WARNING: Cleaning products can trigger asthma**
- **Use less toxic certified products where possible**
- **Natural cleaning products** (e.g. vinegar)**, should not be used with bleach or other chemical products as it can create a toxic gas**
- **Avoid touching your mouth, nose and eyes when cleaning**
- **Bleach solutions should be made daily as they become less effective with time.**
