

Termination of Pregnancy Regions for Prescribed Information Reporting

The purpose of this fact sheet is to assist practitioners to identify which REGION to identify when completing Prescribed Information Reporting. This Fact Sheet provides a list of suburbs, townships and communities for each region as defined in the *Termination of Pregnancy Law Reform Regulations 2017* (the Regulations.)

Medical Practitioners are required to enter the region of a woman's usual residence and the region where the termination of pregnancy took place. Practitioners must only record the region where the woman usually resides. Practitioners - **do not record the woman's address, town or community name**. There is a map attached to the back of this factsheet that shows the boundaries which align to the regions defined in the Regulations.

Prescribed information reporting must be completed for every termination of pregnancy in the Northern Territory and submitted using the [NT Health Termination of Pregnancy Prescribed Information Reporting eForm](#). For any questions in regards to prescribed information reporting contact WomensHealth.DoH@nt.gov.au.
